Each system comes with 2 float bags, stainless steel/brass hardware, adjustable 6" aluminum mounting L-brackets, 37' hose, and complete valve assemblies with built in pressure relief valves.

BOAT LIFT HELPER® AIR-LIFT-BAG SYSTEM

Preserve your relationships! No more pressuring friends and family to help you move your boat lift at the beginning and end of every season. Inflatable bags that make boat lift installation and removal a breeze.

BENEFITS & DESIGN

- Don't lift it, float it!
- Save time, stay dry, save your back
- Stays on your lift all season, making mid-season adjustments and fall removal a walk in the park
- Move the lift when you want, don't be on the schedule of someone else
- Only requires 3PSI to inflate bags (air compressor or 3PSI rated raft inflator)
- Adjustable brackets to fit 99% of lifts
- Multi use - use to install and remove docks

- Built from Military grade 40oz material
  - High puncture resistance
  - High abrasion resistance
  - High UV resistance
- RF welded construction, no glues or sewing
- Marine grade stainless/brass hardware
- Easy setup/easy disconnect for winter storage
- Family owned - American made
- Customer satisfaction focused
